

vallee

*Consulting Engineers,
Architects & Planners*

G. Douglas Vallee Limited (Vallee) is an architecture, engineering, and land-use planning firm based in Simcoe (Norfolk County), Ontario. The firm is a third-generation family business that has enjoyed stability and growth for over 60 years with a staff compliment of approximately 30 people. Our unique, integrated collaboration with our in-house project team of Architects, Engineers and Planners within a small firm sets us apart from the large national and international consultants, providing a complete solution for clients under one roof. We are currently recruiting for a:

ARCHITECTURAL / STRUCTURAL ENGINEERING TECHNOLOGIST

You will work closely with the firm's Architectural department and Structural Engineering department, including our Director of Architecture, Professional Engineers, Technologists, and Technicians. Your day-to-day duties will include working on architectural projects and structural engineering projects, with a focus on buildings projects. This will include engagement through all project phases, including but not limited to: proposal preparation, schematic design and detailed design, preparation of construction documents including detailed drawings and specifications, construction inspection and report preparation, and contract administration assistance. This role will also include collaboration with team members as part of an integrated project team, and assisting with Ontario Building Code (OBC) reviews. AutoCAD experience is an asset, however, it is not mandatory; training will be provided to the successful candidate as required.

Experience & Skills

- Education in Civil Engineering Science or Technology, Architectural Technology or equivalent experience.
- Proficient in Revit. Experience with AutoCAD and Adobe Creative Suite is considered an asset.
- Strong conceptual design skills in 2D and 3D formats.
- Basic knowledge of construction, and understanding of building and building envelope systems.
- Able to work independently, as well as in a multi-disciplinary team environment and develop client relations.
- Strong oral, written communication skills, along with keen attention to detail and observational skills.
- A valid Ontario driver's license with access to a vehicle.

Compensation

- \$65,000 to \$90,000 commensurate with experience.
- Flexible working hours with hybrid in-office / remote working available.
- Group RRSP.
- Dental and health benefits included.

Interested candidates are encouraged to forward their cover letter and CV to melissastickl@gdvallee.ca. All applicants are thanked for their interest, but only those to be interviewed will be contacted.

G. Douglas Vallee Limited is an equal-opportunity employer. Accessibility accommodations are available during all parts of the recruitment process; if required, applicants are requested to advise of their needs in advance. Information collected through the interviewing and recruitment process will be used in accordance with the Freedom of Information and Protection of Privacy Act for the purpose of job selection and not for any other reason.
